

UK Draught Beers

Welcome to the real ale bar which is showcasing over 340 beers from around the UK. The list is subject to change however we have done our best to create a feast of varieties with Bitters, Fruit Beer, Mild, Stouts and Strong Ales amongst the selection. Beers range in strength from 2.5% ABV to 10.5% so there should be something for everyone.

You will see from the beer list that beers are listed by brewery in alphabetical order and this will be broadly replicated across the three bars with breweries running alphabetically from left to right across each of the bars. The labels on the end of the casks will indicate the brewery, beer name, ABV of the beer, style and price in 1/3, 1/2 and Pints. To make the style stand out further the labels will be colour coded with the style of beer and will correspond with the colour coding in this programme.

I would like to thank all those involved in the process of selecting, ordering, preparing and service the beers. All are volunteers. I would also like to thank you for coming to the festival, whether a seasoned CAMRA festival goer or a first timer, CAMRA West Middlesex Branch welcomes you to Ealing. Enjoy the festival, have a great time!
